This year’s conference theme is a call to action for members of our educational community to strengthen our spirit of collaboration and unity to realize the full potential of bilingual education. During these uncertain sociopolitical times, when the education of our ELLs/multilingual learners will inevitably face serious challenges, it is imperative that we seize every opportunity to speak up with one voice and ensure that our educational system supports their diverse needs and talents. Bilingual education holds the promise of a world citizenry that is well prepared to meet the challenges of a global economy and to embrace diversity, multilingualism, and multiculturalism; therefore we, members of the multilingual educational communities, must strive to sustain this vision by working together.
